

I am concerned about the consideration of making Low Power FM stations a priority over current FM translator service. I listen to K-LOVE on 91.5 in my area via a translator service. I don't want to lose my ability to hear this station. It serves me and my family with a positive and uplifting message for all ages. This option for the community is the only one of which I know in our area, or in many other areas I have been including Oregon, Washington state, Texas, and Florida. I am retired military. Losing this service would be a significant deficit for my family and the community. Please do not set a policy that will deprive K-LOVE Radio of this significant message and service to the many communities it serves across this great nation.
